

Project Name: Food Safety Compliance System (FoSCoS)
Customer: Food Safety and Standards Authority of India (FSSAI)
Sponsor: Food Safety and Standards Authority of India (FSSAI)
URL: <https://foscoss.fssai.gov.in/>

Overview: FoSCoS is built with a vision to have a modern one-stop pan-India IT platform for food safety regulatory needs. FoSCoS is conceptualized as the umbrella system which is integrated with FSSAI's other existing IT platforms such as Regular Inspection and Sampling (FoSCoRIS), Food Safety Connect-Complaints Management System, Online Annual Return platform, Food Import Clearing System (FICS), Indian Food Laboratory Network (InFoLNet), Audit Management System (AMS), Food Safety Training and Certification (FoSTaC), Food Safety Mitra (FSM) etc. FoSCoS is a unified compliance platform, which has a robust architecture capable of future extensions and enhancements.

Functionality: FBOs can apply for licenses and registration certificates based on their KoB's (Kind of Businesses) by paying appropriate fees. FBOs can also apply for renewal, modification, surrender, transfer of licenses and registration certificates. Central Licensing Authority (CLA), Designated Officers (DO)/Registering Authorities (RA) can scrutinize the applications submitted by FBOs, send back the application for

clarification, mark the application for inspection or re-inspection by assigning a Food Safety Officer (FSO).

Food Safety Officer (FSO) can perform the inspection and submit the inspection report based on which the DO/RA's issues the licenses/ registration certificates.

Integrations with other systems: FoSCoRIS, SMS, Email, Payment Gateway, other software's of FSSAI

Stakeholders: FBO's, CLA's, DO's, RA's & FSO's

HIGHLIGHTS OF FOSCOS:
