

**Project Name:** Tracenet

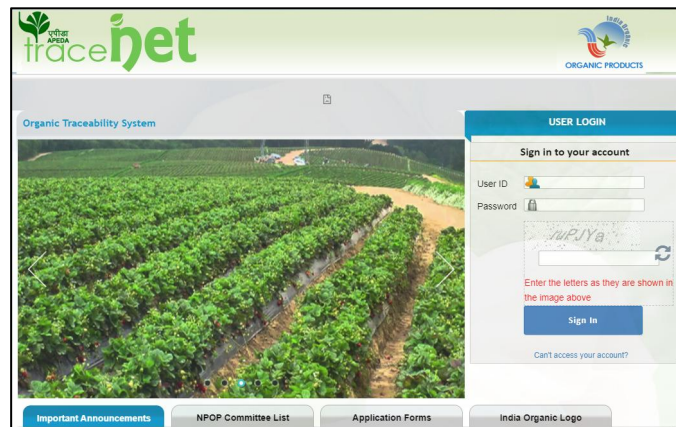

**Customer:** Agricultural and Processed Food Products Export Development Authority (APEDA)

**Sponsor:** Agricultural and Processed Food Products Export Development Authority (APEDA)

**URL:** <https://traceability.apeda.gov.in/organic/tracenet>

**Overview:** TraceNet is an Internet based electronic service offered by APEDA to the stakeholders for facilitating process certification for export of organic products from India, which comply with the NPOP or NOP standards. TraceNet collects, stores and reports - forward and backward traces and quality assurance data entered by the operators / producer groups and certification bodies within the organic supply chain in India.

**Functionality:** Tracenet covers registration of farms, declaration of crops and harvesting details by farmers, processing of all organic products by the processing units, certification of organic products for domestic trade, transaction certificate for export worldwide, Domestic trade within registered stakeholders, and export of organic products worldwide.

**Integrations with other systems:** SMS, Email, iTrack

**Stakeholders:** Certification bodies, Internal Control System (ICS), Individual Producers, Processing Units, Domestic Traders, Exporters,
